## DANGER POINT PASSED

Danger point in industrial depression has been safely passed, and conditions may be expected to improve from now on, Vice-president Roberts of National City Bank declared in an interview.

"It is fair to say that the worst of industrial depression is over," he said. "Before January 1 there was a general feeling of uncertainty. There was almost a total cessation of buying by retailers.

"The situation has now noticeably improved, stocks have been reduced, merchants are more confident, and there is a general resumption of buying.

While the price of her products continues to fall from day to day, Mrs. Hen goes right on producing with intensified rather than abated industry, proving thereby that she isn't even remotely related to the human family, notwithstanding to do it she devotes all her days and her ways.—Springfield Republican.
